

# RITHIK P

Chennai, Tamil Nadu

rithikyazhu@gmail.com | +91 9360648556 | LinkedIn | GitHub | Portfolio

## OBJECTIVE

---

Fresher Data Analyst with hands-on experience in SQL, Excel, Power BI, Tableau, and Python skilled in data cleaning, EDA, dashboard development, and KPI reporting. Strong at analyzing large datasets to identify trends, ensure data accuracy, and deliver actionable, business-ready insights for decision-making.

## EDUCATION

---

|                                                                                     |             |
|-------------------------------------------------------------------------------------|-------------|
| Nandha Engineering College   Bachelor of Engineering (ECE)   CGPA: 8.2              | 2020 – 2024 |
| SR Matriculation Higher Secondary School   HSC (Computer Science)   Percentage: 65% | 2019 - 2020 |
| SR Matriculation Higher Secondary School   SSLC   Percentage: 84.2%                 | 2017 – 2018 |

## TECHNICAL SKILLS

---

**Data Analysis:** Data Cleaning, Data Validation, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, Trend Analysis.

**Databases & Querying:** SQL (MySQL, SQL Server), Joins, Subqueries, CTEs, Window Functions, Aggregations, Query Optimization.

**Visualization & BI:** Power BI (DAX, KPIs, Slicers), Tableau, Excel (Pivot Tables, Power Query, Charts).

**Programming:** Python (Pandas, NumPy, Matplotlib, Seaborn).

**Analytics & Reporting:** Dashboard Development, KPI Tracking, Business Reporting, Data Validation.

**Tools:** Git, Jupyter Notebook, MySQL Workbench.

## PROJECT EXPERIENCE

---

### Music Trends Analytics Dashboard (Excel, Power BI) | [Link](#)

- Analyzed 12,000+ Spotify tracks to assess artist performance, genre trends, and listener behavior.
- Performed data cleaning, transformation, and validation using Power Query, reducing manual effort by 40 %.
- Designed interactive dashboards with KPIs, slicers, and trend visuals to improve reporting clarity.
- Identified high-performing genres and seasonal listening patterns to support data-driven content strategy.

### Airline Operations Insight Dashboard (Excel, Tableau) | [Link](#)

- Processed and analyzed 50,000+ airline operation records covering delays, cancellations, and performance metrics.
- Used pivot tables, filters, and visual charts to identify operational trends and inefficiencies.
- Built Tableau dashboards to communicate insights effectively to support operational decision-making.
- Ensured data accuracy through validation checks and structured reporting workflows.

### Sales Forecasting & Visualization Tool (Excel, Python, MySQL) | [Link](#)

- Developed an end-to-end sales analytics solution using Python and MySQL to analyze 5+ years of historical sales data.
- Automated data extraction, cleaning, and reporting pipelines, reducing analysis time by 45%.
- Created interactive visualizations to analyze revenue trends, seasonality, and product performance.
- Designed a Tkinter-based GUI to enable non-technical users to interact with analytical outputs.
